## SUMMARY

Hi I'm Shubham and I'm passionate about frontend technologies. I work hard and I genuinely love to learn. I'm currently looking for the right opportunity to work in an environment that will help me to excel as a Front-End Developer.

## PROFILE

- Detail-oriented Front End Developer.
- Love to create beautiful and performant products with delightful user experiences.
- Equipped with a diverse and promising skill-set.
- Knowledgeable in user interface, testing, and debugging processes.

## PROJECTS

### Portfolio Website @ [wolfee.netlify.app](https://wolfee.netlify.app)

Tech Used - React JS, Styled Components, Framer Motion

- Fully responsive
- Dark and Light Theme Option
- Option to choose accent color from 4 different options
- Used emailJS api to receive email from contact form

### Youtube Clone @ [youtube-wolfee.netlify.app](https://youtube-wolfee.netlify.app)

Tech Used - React JS, Material UI, Rapid API

- Fully responsive used Material UI
- Separate channel and video pages
- Custom categories option on homepage
- Used rapid api to fetch videos and channels details

I have worked on several other projects during my learning journey which you can find at my [github page](#) or on my [portfolio](#) website under project section.
